

LITTLE GESTALTEN

SPRING 2023

"The reading of all good books is like conversation with the finest people of the past centuries."

DESCARTES

Nothing fosters a child's imagination quite like a book. Books help us understand the world, pique our natural curiosity, impart knowledge, and hearten us to be empathetic and brave. In other words, books empower young readers to become the best versions of themselves. During this special time we are living in, our books invite everybody to be open, and stay curious.

Spring is here! No matter how long the winter, spring is sure to follow and we are all drawn towards the great outdoors once again. Our new programme will encourage children to discover the magic of the season!

Little Green Fingers helps young gardeners to get their hands dirty and get involved in nature and plants—whether they have a garden, an allotment, or simply a kitchen windowsill to work with. Our wonderful follow-up to our first board book, *The Animal Show, How Many Birds?* by Marcos Farina is a beautiful, colorful introduction to counting and first numbers featuring the wonderful world of birds. *Young Adventurers* is the perfect inspiration for children to get outside and have fun! From camping, wildlife watching, and surfing, to horse riding, hiking, and plant identification, this book has something for everyone—who knows, maybe readers will find their new favorite hobby this way! Lastly, we look in on *Smart Animals*—these unexpectedly brilliant beasts may surprise us with their puzzle solving, communication, and understanding.

The words and pictures on the pages of a children's book encourage children to think for themselves, formulating their own perspective of the world around them. Our books are aimed at children, but can also enlighten and inspire adults reading along too.

We hope you enjoy discovering our new titles.

Little Gestalten

SAMPLE COVER

What makes an animal smart? What is smart? The brainpower of these brilliant beasts may surprise readers of all ages.

Our human brains have taken us all around the globe, and even into space ... But we are not the only clever creatures on the planet. Some animals are so smart that we don't even know the extent of their intelligence.

How do some animals play? Can they use tools? How do they solve problems? *Smart Animals* answers all these questions and more, as well as featuring octopuses navigating mazes, rats outsmarting lab experiments, dolphins giving each other names, orangutans solving riddles, counting honeybees and much more. Get ready for the most marvelous and mind-blowing masterminds from our animal kingdom!

MICHAEL HOLLAND studied Ecology at Lancaster University and Oregon State University and is a keen photographer, wildlife gardener and all-round composting nerd! He is the author of the bestselling title *I Ate Sunshine for Breakfast* and this is his first book about animals.

Slovakian illustrator **DANIELA OLEJNÍKOVÁ** is passionate about screenprinting and linocut and has illustrated more than 20 titles for junior readers. We all learn what the letters of the alphabet look like, but how do they sound?

The letter A goes, AAAAH!
like when I welcome a friend I have been missing ...

The letter B goes, B' B' B' B'—
like the bubbles in a bottle that I dip in the bath ...

The letter C goes, K' K' K'—
like when I break the shell of a boiled egg ...

The Sound of Letters is an alphabet book unlike any other! This beautifully illustrated, colorful book of letters explains what each letter sounds like in a unique and fresh way.

JEANNE BOYER studied philosophy. She has two children and lives in Paris. Today, she writes children's books: documentaries, game books, novels, poems and albums. She is the author of numerous children's books and her stories appear regularly in the youth press.

JULIEN BILLAUDEAU was born in Chambray-les-Tours in 1983, with his head in the stars. After drawing and painting just about anything and everything, he left for Paris to study at the École Estienne where he learned illustration, but also wood engraving, lithography and screen printing and entered the section image printed at the Arts-Déco in Paris. After spending a few months in Asia discovering Chinese wood engraving, he illustrated children's books, exhibited his drawings and led workshops with teenagers.

From Atticus, the altruistic astronaut to Zooey, the zonked zombie, this book revamps the ABCs.

C is for cat? D is for dog? Not in this book! Here, Colossal Cornelius captures his companions with his camera and Daisy the diver dares a death-defying dip with dinosaurs. In Alphabetics, each of the alphabet's twenty-six letters is depicted with an awesome alliteration—not to mention an illuminating illustration—that will captivate and stimulate young minds.

Although the lettered tales are meant to be humorous and fun, they also serve a commendable purpose. Complex words are introduced to expand children's vocabularies and linguistic horizons. The book includes a glossary so that readers can look up any terms that are unfamiliar to them.

PATRICK AND TRACI CONCEPCIÓN are the parents of a lovely daughter who has inspired them to create this children's book. Patrick is the founder of Conception Studios, a design studio based in California's San Francisco Bay Area that specializes in graphics for the music industry. Clients range from Paul McCartney to Lady Gaga.

Born in 1982, **DAWID RYSKI** lives and works in Pulawy, Poland. He has illustrated numerous newspaper and magazine articles, and created countless concert posters, album covers, and graphic designs for apparel companies. He is the drummer of a Warsaw-based band called the Black Tapes.
